What Customers Are Saying About EMCVenues...

“The professional and courteous attitude, expert knowledge, and patience in handling our specific meetings has resulted in Merial Limited’s internal customer being completely satisfied and pleased with the assistance and service provided by Sherry Awbrey at EMCVenues. The EMCVenues staff worked very hard to personalize the online RFP for us, this added compliance for our many internal customers. The cost savings reporting and support is a huge time saving tool for me. Merial Limited has experienced timely follow up and immediate resolutions to any problems that arose from our new processes. We look forward to patronizing your organization for many years to come.”

“As a new meeting planner, I needed a lot of help getting our meetings set and perfect. We went from 10 meetings a year to almost 40 a year and I was really dreading the work to do this. Their sourcing program is so easy and the side by side comparison spreadsheet so efficient in narrowing my options. EMCVenues requests the contracts asking for any revisions and concessions—I rarely see a contract until it’s perfect and ready for signature. If we need to increase our meeting room size, reduce the size, add meeting rooms, etc. Nancy Crook is there all the way! She even follows up after the event to see how it went. I have some hotels we contract with year after year. I still have EMCVenues work with me on the contracts to make sure I don’t miss something critical that could cost us financially down the road or cause our program not to be top notch. I love working with this company. I envision many years of partnership.”

“EMCVenues is a valuable resource and supports me in my position at Ricoh Americas Corporation. EMCVenues sources meetings for many different people here, saving Ricoh thousands of dollars on each meeting. This process saves me valuable time by providing pricing spreadsheets and contract review. In addition, EMCVenues assisted me in creating the RAC Strategic Meeting Management Program which has been highly successful.”
